DETAILED ACTION

Priority

Acknowledgement is made of documents filed claiming this application is a divisional of pending U.S. Patent Application No. 10/315,511, filed December 9, 2002, which is a continuation of U.S. Patent Application No. 10/092,829, filed March 6, 2002, now issued as U.S. Patent No. 6,515,325 .

Request for Continued Prosecution Application(RCE)

The request filed on January 24, 2005 for a Continued Prosecution Application (RCE) under 37 CFR 1.114 based on parent Application No. 10/822113 is acceptable and a RCE has been established. An action on the RCE follows.

Preliminary Amendment

Applicants' amendment filed on April 08, 2004 cancelled claims 1-20 and 23 to 29 . Therefore only claims 21 and 22 were pending .

Applicants' amendment filed on January 24, 2005 added claims 30 to 54 .

Therefore claims 21 , 22 and 30 to 54 as recited in the preliminary amendment of January 24, 2 005 are currently pending in the Application.

Allowable Subject Matter

Claims 21, 22 and 30-54 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The applied prior art fails to teach a combination of all the claimed features as presented in independent claims, which include an electronic

control device as claimed in independent claims 21 and 22 namely providing a substrate forming a first insulation layer on the substrate forming a nucleation layer on the first insulation layer patterning the nucleation layer to cover the nucleation layer such that portions of the nucleation layer remain exposed forming nano tubes on the exposed portions of the nucleation layer, the nano tube oriented to be substantially vertical in relation to the substrate; forming an insulative layer on a exterior walls of Ge nano tubes; forming rings of conductive material about the exterior walls of ie nano tubes; and forming a second insulation layer over the exterior walls of the nano tube. Or forming trace layers instead of the insulation layers in claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

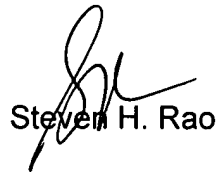

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven H. Rao whose telephone number is (571)272-1718. The examiner can normally be reached on 8.00 to 5.00.
